

**Thank you for choosing Barnett's Propane, LLC.**

Enclosed is the necessary paperwork that must be completed before we can begin servicing your tank.

**Equipment Lease and Service Agreement:** Although you are not leasing any equipment from us, you are giving us permission to provide a service on your property. Please fill out all highlighted areas including the size and serial number of your propane tank for our records. On the reverse side of the white copy, **please draw a map** showing us where your tank is located using local highways and major roads as landmarks, to help us find your home. Please make sure to include a daytime phone number (home, work or cell) in case we need to contact you.

**Payment options:**

- 1. Application for Credit:** If you would like the option of charging your propane for up to 30 days after delivery and prior to the next delivery, you must fill out all hi-lighted areas, including the credit card number.
- 2. Cash In Advance:** You would call our office when the tank is at 30% to get the current cost of propane. When your payment is received in our office your order will be processed for the next time we are in your delivery area.
- 3. Credit Card on File:** Many customers choose to keep a credit card on file with us. We automatically run the card after each delivery.

**\*\*We request that the first delivery be paid in advance.**

Please call our office before returning these forms with your tank size and the percentage of propane left in your tank so that we can quote you the correct price to fill your tank.

**\*\*We recommend that you fill your tank each time you order propane,** thus eliminating unnecessary trips. The best price is when you fill your tank and pay within 10 days. Minimum deliveries are priced higher per gallon, please ask when ordering.

Thank you again for choosing Barnett's Propane, LLC. By working together we can provide you with the most dependable service available. Should you have any further questions please do not hesitate to call.
